NOW COMES THE APPLICANT, Daufuskie Island Utility Company, Inc. ("DIUC"), in compliance with the instructions of the Commission, to file herewith a schedule of rates demonstrating that DIUC's rate design produces the revenue approved by this Commission. *See* Exhibit One.

This schedule was previously filed with the Commission and served upon the parties to this case pursuant to Commission Directive dated December 20, 2017. *See* DMS Entry # 273764, Letter from Gressette to Boyd, 12-22-17.

Within the three pages served again herewith, the first page (marked "Schedule A-4") demonstrates that the rates result in the Commission-approved Operating Margin of 14.6%. The second and third pages attached demonstrate a Revenue Impact Analysis of Existing Rates prior to the Application (marked "Schedule A-5, Page 1 of 2") and a Revenue Impact Analysis of Proposed Rates per the Commission's ruling (marked "Schedule A-5, Page 2 of 2").

It should be noted that applying the Commission's ruling and the resulting fallout adjustments produces a revenue increase in the amount of \$955,136, which is slightly higher than the \$950,166 of additional revenues referenced by the Commission.

FURTHER, DIUC provides notice that it calculated refunds due customers for the difference between the higher rates it collected under bond and the rates approved by the Commission following rehearing then via DIUC's billing in January 2018, the company issued credits to its customers with interest.

A copy of this Notice of Filing of Rates is also being served upon the other parties to this case.

Respectfully submitted,

/s/ Thomas P. Gressette, Jr.
